

# The Introvert - Extrovert Vulnerability & Opportunity Map

**Two decks will give the best results here; try an "intimate" deck and a more "outgoing" one. The "Personal Totem" can be a chosen Significator card or a personal item similar to one used in psychometry. The "Cocoon" spread shows one's psychological fortress; the idea is to look for "chinks in the armor" revealed by weak or unfavorable cards. The "Hive-Mind" spread shows one's place in a larger web of social influence; the idea is to look for opportunities to expand through interaction (favorable cards) or assert one's individuality when challenged (weak or unfavorable cards). Oracle decks may work well here. The ultimate goal is individuation.**
